VOL. 15 NO. 29

THE WILMINGTON CRUSADER, WEDNESDAY, JULY 23, 1952

PRICE 5 CENTS

Town Meeting To Be Called For August 4

The Board of Selectmen, last Monday night, decided to call a Special Town Meeting, on August 4th, in the new High School.

The Board made this decision because of a number of items which it believes the town should vote on.

New Elementary School

The School Building Committee has decided on a site, but the price is too high. Plans, however, have been made, and it is now a question of whether or not to exercise the right of eminent domain. The Selectmen believe that it is up to the townspeople to make this decision.

If the town votes to take this land by eminent domain, it will also be asked to vote for the new school, at the same time. The new school proposition is going to be quite complicated, because of the recent changes in the State laws, and it is possible that two town meetings might have to be called to completely authorize the school. If this is so the first meeting will be one in which the Selectmen will be authorized, by the town, to go ahead and negotiate to borrow the money, and the second meeting will be an approval of the borrowing of the money.

Town Wants to Sell Land

Another article in the warrant would be to authorize the town to sell land to the New England Gas Products Company, out of part of the old Town Farm. The N.E. Gas Products Company is desirous of buying about 36 acres for use as their main place of business.

Another small portion of land, adjacent to the above, and adjacent to Raffi and Swanson, is being sought by that company, in order that they may build a railroad siding on their property.

Both of these lots would have to be sold by vote of the town.

Cunningham Street

The town has already voted to join Cunningham Street and Essex Road, as a fire lane, but an unexpected hitch has developed, in that connection could not be made as anticipated, and a slightly different route has had to be chosen. The town will be asked to vote on this route.

WATER EXTENSIONS ARE PROCEEDING

Water extensions, in Wilmington are proceeding satisfactorily. So far Hillside Way and Laurel Avenue have been finished, in addition to the last of Eames St., Wiser Street and Hobson Avenue are complete, except for joining in on the main, and the town has to wait for permission from the state, to cross Main Street, first. Work is now going on on Jacquith Road, and Washington Avenue is about to begin.

SURVEY OF THE TOWN FARM COMPLETED

Probably for the first time since the town took over the Town Farm, in 1827, it has now been completely surveyed. The cost was \$1567, and the job was done by Dana Perkins. The Selectmen were pleased with the work, when they inspected it, Monday night.

ED TWOMEY APPOINTED TO PLANNING BOARD

Edwin J. Twomey of Burlington Avenue, has been appointed a member of the Planning Board, the Town Manager announced last night. The appointment, which has been effective several weeks, met with the approval of the Selectmen.

Mr. Twomey, 51, and a life-long resident of Wilmington, is the New England Manager of the American Hawaiian Steamship Company, with offices in Boston. Until recently he had not been very active in town affairs for some years, although in past years Mr. Twomey has served in many capacities.

O'NEIL RESIGNS BOARD OF PUBLIC WELFARE

Maurice O'Neil of High Street, has resigned from the Board of Public Welfare. In a letter which was accepted with regrets by the Town Manager, Mr. O'Neil stated that a change of business has necessitated the resignation.

MIDDLESEX AVENUE TO BE COMPLETED SOON

The TM told the Selectmen, at their meeting Monday night, that he expects that the work on Middlesex Avenue in North Wilmington will be completed within ten days. He explained to the Selectmen that the delays were caused by several reasons, such as inability to get a general contractor, and the necessity for waiting several days on occasion for the inspection by State engineers.

CHARLIE STEEVES GOES FISHING

Charlie Steeves, the boy who doctors thought would never be walking again, went on a fishing expedition, to Gloucester, last Sunday, as the guest of George Beal, of Aldrich Road. Charlie caught several flounder.

POLICE AND FIRE STATION PLANS READY

The police and fire station plans are nearly ready, and the Town Manager believes that they will be ready for bidding in about two weeks. The steel strike now looms as a delaying factor, in the erection of this building, due to the lack of structural steel.

NORTHEAST GAS WANTS TO REDUCE ITS BOND

Before the pipe line was laid through this town, by the North East Gas Transmission Co., they were required to put up a good performance bond of \$9,000. The town is now in receipt of a letter from the company, seeking to reduce the bond. The TM doesn't think it is a good idea.

THE TANK WENT DRY SATURDAY

At 8 p.m. last Saturday, suddenly, the water tank on Kelly's hill went dry. Distraught householders, many of whom have presumably been watering their lawns or gardens a moment before, flocked to the telephones to report their troubles to the North Wilmington pumping station. People on Burlington Avenue, parts of Taft Road, and parts of Marion Street were unable to get water.

The town had been buying water, from Tewksbury, in lots of 100,000 gallons, or more, for several days and on this occasion the water gate was again opened and within half an hour sufficient water was on hand. It was close, though, Eddie Sargent admitted. Pressure in the pumping station was down to about 40 pounds, on one occasion.

Water consumption has been over 1,500,000 gallons a day now for some time, and the pumps, at the present time have been delivering about 1,400,000 gallons. North Reading, with about 1000 services has been using about 200,000 gallons or less a day, according to the meter. North Reading has stopped all lawn sprinkling until further notice, and the police there, on Sunday night, enforced the order by personally serving notice on over 100 householders.

The water mains, all over town, have been carefully inspected for possible leaks, Mr. Sargent said, and nothing has been found. The only other conclusion is that the people of Wilmington who are using the water. There are 1700 services in Wilmington, he said, of which about one third are metered.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Reginald Burrows of School Street, Northboro, announce the engagement of their daughter, Dorothy Ann Burrows to Sgt. Robert Fraser Drew, son of Mrs. Wavie Drew, and the late Laughlin H. Drew of West Street, Wilmington. Miss Burrows graduated from Northboro high school in '52, and Sgt. Drew from the Wilmington high school in '49. He is now stationed at New-castle Air Force Base near Wilmington, Delaware. No date has been set for the wedding.

NO MORE PERMITS FOR OPEN FIRES

The Wilmington Fire Department requests that everyone be very careful of fires: Until the drought has been overcome, by a good rainfall, the Department is not going to issue any more permits for outdoor fires.

WATER SHORTAGE ALERTS FIREMEN

The water shortage, Saturday night, was of alarming proportions, as far as the Fire Department was concerned.

At 8:35 p.m. a brush fire was reported on the further end of Marion Street. Engine 3 responded, and put the fire out with the tankful of water on the truck. It then went back to the nearest hydrant for a refill, but, because of the low pressure, could but get a little water. The tank was finally filled, and the truck returned and went down the brush thoroughly, to prevent a recurrence of the fire.

On the return to the station, all the regular men, and some of the call men, a total of 10, were summoned. Tewksbury, too, with a 1000 gallon tank on one of its trucks, in charge of Chief Anthony Odbens, came down to stand by.

By 11 p.m. the pressure had returned to near normal, and the extra men, together with the Tewksbury truck, were dismissed.

SUSPICIOUS FIRES ON ANDOVER STREET

The Wilmington Fire Department received a telephone call from an unknown motorist, at 5:50 p.m. July 19th., that there were three fires on Andover St. Engine 5 and Engine 3 responded and Joe Medico and John Cooke, who happened to be near, also assisted. Medico and Cook were left at the site of the forest fire, which was by the roadside, just south of Daly's, and was of small size. The truck proceeded on with Ralph Plummer and George Cushing, and found the Andover Department putting out a second fire, just over the Andover line. The Andover Dept. said that there was a third fire in the Ballardvale section, so the department doubled back on Ballardvale St., to see if it was in Wilmington. It was, however, in Ballardvale itself, and the Andover Department took care of it.

Meanwhile another fire was reported, shortly after six, on Woburn Street, near the Edward Rice home. This was quickly put out by Engine Four.

SHE DIDN'T NEED THE PRIZE

Miss Ann, Cameron, of Lake Street, who won second place in the Beauty Contest, at the Police Associates Block Dance, was awarded, as a prize, a permanent, at Helen Lee's Beauty Shop.

Miss Cameron didn't need the prize. Her hair is naturally curly. Tim Cunningham, when he learned of this, donated another prize. The original prize was left to Ann, to donate to one of her friends.

WHA OPENS FOR BUSINESS

The Wilmington Housing Authority, on Wildwood Street, is open for business.

Today, the 23rd of July, the first eight houses are occupied. The Housing Authority, at its meeting last night, announced this, together with its regrets that there was not to be an Open House. The Authority believes that it was more important to get the house in operation, than to delay, for what would be a time wasting function.

The remaining five houses are expected to be occupied by the first of August.

ROTARY LISTS DONORS TO PARK FUND

The Wilmington Rotary Club has released a partial list of those who have purchased stamps, for the Rotary Playground Fund. Response has been pretty good, the committee in charge announces, and it is hoped that more contributions will be received before the closing date of the drive, July 31st.

An incomplete list, as released, shows that the following have contributed. Hayden Mica Plant, Bay State Steel Company, Mr. Meiselman, Arthur Starr, Birds Eye Division of General Foods, 200 West St., John Gleason, Henry H. Cutter, Otto Jacobson, Foster Basser, Nils Ingalls, Edward P. Stanley, Leon Gagnon, Frank Stevens, Abraham Leiter, Raymond Bjork, Keith Nelson, Amelia Booth, Harry Fine, Thomas McQuaid, James Gracie, Elmer Branscomb, Charles Hubbard, Bill Andrews, William F. Richard, William Coffin, Raymond Ashworth, Peter Neilson, Dmitri McKaba, Larz Neilson, Sam Heller, Walter Babine, Clyde Conway, Edward Korzergz, John A. White, Jr., Antonio Martins, Mrs. Peter Mortsell, Donald Pierce, John J. O'Brien, Joseph Doucette and Henry J. Porter.

William McFeeters, Gordon Hamilton, Henry Flight, William F. Sullivan, Francis Russell, William J. Briand, Louis Abate, William J. Corneliusen, Manuel Coutinho, Wilson Belbin, Martha Rogers, Charles Ward, John Witham, Lindsey Stevens, Henry Lawler, Ruth Gratecky, Edward Haskell, Sam Tucker, John L. Berigan, Bernie Stimpson, Charles J. Ward, Myer Weinberg, Grace Curl, Charles Webster, Malcolm Budd, Samuel Snyder, Mary Swain, E. Royden Carter, Sylvester Madden, Harold D. Smith, Carl Allen, Edward Corbett, John Tobey, Charles Buck, Miriam Sullivan, Frank O'Rourke, Ernest Chase, Vernon Randall, Ben Bishop, Norbert Cutter, George W. Danico, Theodore Wicks, Joseph Darwin, Frank Yentile and Ernest Farrell.

More names will be listed in next weeks Crusader.

MRS. ARTHUR O'CONNELL

Mrs. Arthur O'Connell was admitted, on July 22nd, as a patient to the New England Deaconess Hospital, in Boston.

AGED WOMAN TWO DAYS IN WOODS

Wilmington police, last Friday, investigated a report from a householder on Strout Avenue, and found an aged woman, lying in the woods behind the householder's home.

According to reports, the woman had been there for two days, and children had been bringing her drinks of water.

The woman, who was 70, was identified as Elizabeth Kennedy, who had escaped from the Massachusetts State Hospital, on April 20th. She was turned over to the

BREAK AND ENTRY AT SILVER LAKE

Police are investigating a case of break and entry, at the home of Edward Neilson, on Glen Road. The report was dated on July 19. Entry had been gained by forcing a rear door. Nothing, apparently had been taken from the home.

WHITE-FOOTED MOUSE

Life is short for White-Footed Mice. They are old at the age of three, and they hardly ever live to be more than five. To survive that long, they must stay out of the clutches of their enemies.

Some of them are lucky and avoid capture. But according to the National Wildlife Federation, untold numbers are seized and eaten by hawks, owls, skunks, weasels, minks, foxes and snakes.

Despite this toll, White-Footed Mice are plentiful in nearly all parts of the United States. Sometimes they live in buildings, but they get along just as well in fields and woodlands. In all kinds of weather, summer and winter, they make the best of what they have.

On grassy plains, White-Footed Mice burrow in the ground. In forests, they may dig their shelters under rocks, stumps and logs, or they may live in the hollows of trees. Because they are good at climbing, they sometimes go high above the ground to find tree holes or old bird nests in which to make their homes.

In the spot which they choose, the parents carefully build a nest of plant materials. In it they raise several litters of young each year. There are from three to seven babies in a litter.

At birth, a White-Footed Mouse is tiny, blind, and helpless. It is only an inch and a half long, and depends on its mother for food. But it grows rapidly and soon is on its own. In less than three weeks it has its eyes open and no longer needs milk.

By the time it is two months old, the White-Footed Mouse is fully grown. It is seven and a half inches long, including a tail that measures three and a half inches. Its body is plump and, for a small creature, it has large ears and eyes and a long head.

True to its name, the White-Footed Mouse has white feet. The underside of its body is white, too. Its head, back, and sides may be either fawn, brown, or gray.

Because it is so dull in color, the little animal does not attract much attention as it scurries around looking for food. It feasts on many kinds of seeds and nuts, and it also likes snails and insects. Besides the meals which it eats every day, it collects supplies and stores them away. In its cheek pouches, it carries grain and bits of nuts to the hiding place where it saves food for the winter.

Like their gray cousins, White-Footed Mice are usually looked upon as pests. They eat valuable grain, and sometimes they damage houses and barns. By eating insects, though, they make up for part of the trouble which they cause.

CAR PARTS STOLEN

Wilmington police are investigating the theft of car parts, from Cain's car lot, Friday night. In a report dated July 19th, two hub caps and radio were reported stolen from a 1948 Ford convertible, in which entry had been gained by smashing a window. Two Pontiac hub caps were reported stolen at the same time. Total loss, including injury to property, was estimated at \$250.

HIT AND RUN REPORTED

Mrs. Evelyn Gilbert, of Highland Avenue, reported to the police at 4:25 p.m. on July 19th that while driving on Main Street, near Marjorie Road, her car had been sideswiped by another. The other car drove off, without stopping. She described the driver as an elderly man.

LOST DOG

Joseph Ricelli, of Shawsheen Avenue, reported to the police, on Saturday that a black and white Boston terrier, answering to the name of Ginger, had been lost, somewhere near the Ricelli home.

NEW LAWS PASSED

Closely following fish management policies of the Division of Fisheries and Game, laws signed on May 31 by Governor Dever increase the legal minimum length of pickerel to 14 inches, remove the length law on white perch while increasing their legal daily limit to 20, and increase the legal aggregate bag of all fishes to 30.

In other words, fellows, effective on August 29, you can take up to 30 fish daily, in the aggregate of all kinds (excepting shiners, bluegills, sunfish, suckers, eels and carp, of which you can take all you want). Your pickerel must measure 14 inches or more, and you can keep any size perch.

The total daily limit was increased from 20 to 30 to encourage the taking of more panfish, with which our waters are badly over-crowded. The length law on white perch was removed, and the daily limit of these gamey fighters increased to 20, for the same reason.

The legal length on pickerel was increased from 12 to 14 inches as most female pickerel have no spawn before reaching nearly 14 inches. This ought to have important results in the number of pickerel naturally propagated.

Another important law recently passed is the prohibition of rabbit hunting during deer season.

AUTO ACCIDENT ON CHURCH STREET

At 8:35 a.m. June 17th., a collision between a car driven by Lars Christiansen of Andover Street and Peter McHugh of Church Street resulted in the McHugh car being turned on its side.

According to the police, Christiansen was going south, on Church Street, and his car was in a collision with that of McHugh, who was driving across Church Street, from Beacon Street. McHugh suffered light lacerations about the face.

Christiansen was uninjured. His car was towed to Cain's garage. George Cushing, of the Fire Department responded to the call with the police ambulance.

AUTO ACCIDENT ON MAIN STREET

A car driven by Bernard Sexton of Humphry Street, Wakefield was in a collision with a truck, driven by Fletcher Fisher of South Street, Tewksbury. The accident happened at 3:20 p.m. on the 17th., and was at the intersection of Grove Avenue and Main Street. Both cars were going north at the time of the accident. There were no personal injuries.

ECONOMY OR FALSE ECONOMY

Washington—In trying to pare all surplus weight from the Defense Appropriations Bill, the House lopped away \$130,000 earmarked for the National Board for the Promotion of Rifle Practice. In doing so it appears to have stepped over the line where economy ends and false economy begins, the Wildlife Management Institute believes.

To maintain a single soldier during the 68 hour allocated to marksmanship under present training programs costs more than \$200. The pruning operation by the members of the House of Representatives resulted in a cut of 0.00026 per cent of the total defense budget and eliminated a program under which excellent riflemen have been turned out at a cost to the taxpayers of \$1.30 each a year.

The National Board is a volunteer program for the furtherance of better marksmanship. Thousands of citizens give unsparingly of their time as instructors, and hundreds of target ranges have been constructed and maintained by funds donated by civilian members of private rifle clubs. Under this program enough civilian marksmen will be trained in 1952 to supply 36 divisions with all their needed riflemen.

Most of these men and boys who are being given this practical rifle training are men who tomorrow, next year, or five years hence may be called upon to defend their homes and country in the armed services. Most of them, in this eventuality, will be armed with rifles in spite of advances in heavy ordnance and machine warfare.

Veterans of the last war know how little time is devoted to marksmanship in war time. Even infantry replacements often get no more than the essentials of marksmanship; service troops get barely enough to teach them which end of the barrel to point at the target. Yet these same citizen soldiers, clerks, cooks, and truck drivers, may be called upon, as they were in the Battle of the Bulge and more recently in Korea, to supplement the line infantry, to kill or be killed.

Many of the men who bravely met Hitler's hordes in the fog around Bastogne or who fought the early battles of Korea might have done more killing and less dying if they had had the benefits of thorough training in marksmanship as civilians. The Senate will make a final decision of whether this important program, started in 1902, will die, be maintained, or be revitalized with adequate appropriations for an extremely important task.

NEW SLANT ON FISHING DERBIES

Your editor has written Mr. Floyd Showalter, national director of Better Fishing Incorporated, to suggest that emphasis might well be placed on the direct conservation benefits of such derbies, to wit:

"I am taking the liberty of enclosing a copy of our 'Panfish Derby' booklet, which we recently sent to the Bay State sporting clubs. It emphasizes the practical conservation angle of such derbies, in the control of over-populations of rough fish. We have found in this state through our pond survey program (and we are by no means alone) that most of our lakes and ponds, and reservoirs too, are so overcrowded with bluegills, perch,

suckers, crappies, sunfish and carp in some cases, that the other more favored game fish, pickerel, bass and trout, suffer from the competition for the available food supply.

"We have found that by removing these 'weed fishes' (the same species that are most extensively caught in derbies) the more popular game fish increase in number and size, and better all-around fishing results."

To which we received the reply from Mr. B. F. Deppe, Co-ordinator of Better Fishing Incorporated:

"If there is any way that Better Fishing Inc. can cooperate or aid in your program, please do not hesitate to contact us further."

Our reply to Mr. Deppe emphasized the fact that, all too often, derby officials requested stocking prior to the event. This is almost always unnecessary in Massachusetts because of the condition expressed in our original letter. In fact, on several occasions, "municipal authorities have requested stocking of public park wading pools, when terrific fishing existed in open ponds very nearby."

We also suggested running derbies for more than just one day, much in the manner of salt water tournaments. This would spread the benefits of the program over a longer period.

There you have the double bar-

relled possibilities of a kid fishing program: Control of panfish and education of youngsters in the conservation idea at the same time. It's too good an opportunity to miss.

New submarines will use 1,500 tons of scrap lead, part of the estimated \$8,000,000.00 recovered thru metals conservation programs begun in 1948.

NEW BRUSH CUTTER GETS A TRYOUT

The town has bought a new brush cutter, which fits on to the front end loader. The cost was \$640, and it was tried out, Monday, on Shawsheen Avenue. The TM reports that it works very well, but he never realized until now how many of the road shoulders in this town were not in good condition. He had jotted into his notebook, he says, a criticism of the shoulders, and hopes to do something about it in the future.

NORTH WILMINGTON RAILROAD CROSSING INSPECTED

At the request of the TM the B&M RR sent H. G. Clifford to inspect the North Wilmington Railroad Crossing, on July 11th. Mr. Clifford has a position with the Railroad that could probably be described as the "Automatic Gate Crossing Specialist." What recommendations he made if any, is not known.

BOY SCOUTS TO HAVE OVERNIGHT TRIP

Camp Forty Acres is to be the site of an overnight hike by Boy Scouts of Troops One and Two, Wilmington. ASM Rogers, in making the announcement has specially invited the Camp Rangers to be present.

SILVER LAKE BEACH THROGGLED IN HOT WEATHER

The hot weather of the past two weeks has brought crowds of swimmers to Silver Lake, seeking relief from the heat. Eddie Forrest, the lifeguard at the Town Beach reports that 1500 persons were counted, at one time, on Sunday, using the beach and water.

Most of the glass, which was present earlier in the season has now been cleaned up, but there are still a few cuts being experienced, by bathers, Eddie reports. Most of the cuts now, are from persons who have ventured out of bounds of the beach, by ducking under the ropes.

A first aid kit, with over \$13 worth of supplies has been almost entirely used up, in bandaging persons who cut themselves on the glass, Eddie reports.

There have been several cases of breaking into the Lifeguards shanty in spite of the fact that there is nothing worth stealing there.

Eddie is grateful to several persons who have been helping him, as volunteers, during the summer rush. Bill Nee, of the Fire Department and Sgt. Frank Geysen, of the Boston Police Department, a vacationer here, have been particularly helpful, Eddie reports.

TEST WELLS ARE BEING DRIVEN ON THE OLD TOWN FARM

The New England Gas Products Company, in company with the Town, and employees of the H.E. Smith Pump Co., are driving test wells, in the thirty acres of the old Town Farm which lies to the north of the Lowell division of the B&M RR and to the east of Main Street (route 38.)

So far 26 wells have been driven in the back part of the lot, near the route of the old "Narrow Gage" and in other parts nearby. Near the "Narrow Gage" the best water was had from a well which was sunk in silvery sand. The water tested perfect and a flow of 40 gallons per minute was obtained.

Five wells have been sunk in the woods, about 50 feet from the highway. Good water has been obtained, with one well delivering 65 gallons per minute, on 11 inches of vacuum.

The men who are sinking the wells, which are to a depth of approximately 30 to 60 feet, report that from time to time glacial boulders are encountered, necessitating abandoning of the hole where the boulder is encountered. The New England Gas Products Company, manufacturers of indus-

TM THANKS OUT OF TOWN FIRE DEPARTMENTS

The Town Manager, Mr. Dean Cushing, has written letters of thanks, to Arthur Hallenborg, of the State Forest Fire Service, thanking him for the aid rendered in helping to combat some of Wilmington's recent fires. Mr. Hallenborg, who lives in Billerica, is one of the Selectmen of that town.

Thanks was also expressed in letters to the Chief of the Tewksbury and Billerica Departments, for their aid in fighting recent fires.

CHIEF OF POLICE THANKS READING DEPARTMENT

Chief of Police Paul Lynch has written a letter to the Reading Police, thanking them for sending their ambulance to Wilmington, on July 9th., at a time when the Wilmington ambulance was otherwise occupied. The Reading ambulance was used to transport two accident victims to the St. John's Hospital, in Lowell.

TOWN NOTES

RAIN??

Yes, we had some. The pumping station recorded .01 inch on the 18th., which was the second rainfall in July, and bringing the July total up to exactly .20 inches (one fifth of one inch). After only 2.28 inches in June, July is being cruel, to say the least.

TOMATOES

We think that Warren Willis, on Butters Row, had the first this year. We hear he had tomatoes a week ago Tuesday.

There isn't much danger of the tomato blight, at the moment, because of the excessive dryness. However, if it ever does begin to rain, we want to remind our readers to be sure to dust tomato plants once a week, with a Bordeaux (copper) dust, or some similar solution. Tomato blight, in wet August days, destroys a large part of the crop, nowadays, in New England.

BEE TREE

After last week's hearing of the Planning Board, we hied up to Pine Hill, to look for the Hemlock that Mr. McMahon had mentioned. This was the hemlock under which the powder house stood, in the days of the war of 1812. We had searched for it before, but without luck. Now, with Mr. McMahon's map, we had an easier time.

The tree is enormous. We didn't measure it, but we would say that at breast height, it is nearly 10 or 12 feet in circumference. It is not as big as the one over on Aldrich Road, though.

About 25 feet up, on the southwestern side, is a hole perhaps 4 or 5 inches in diameter, and here one saw a cluster of bees. According to Joe McMahon, the bees have been using this tree for a hive for many years. We hope that no bright eyed individual attempts to destroy the tree, just to see if there is any honey there. A wonderful tree, like that, deserves to be protected.

BLUEBERRIES

It is not a year for blueberries. No one that we have met has reported any success, in Wilmington. Whether it is because of the dry weather, or for some other reason, we don't know, but the blueberries are not to be had for the picking, this year.

CUTTER BLOCK

The renovation of the Cutter Block is proceeding apace. We understand several companies are dickering to lease space there. We have heard talk of a linoleum store.

THE TOWN MEETING

Several other articles, other than those the Selectmen are preparing are expected to be presented at the Town Meeting. Any article, in order to be valid, must be presented at least 12 days before the meeting.

BLOOPER

Last week we saw Jimmy White working on the water fountain. Later the same night there were a few boys trying to destroy the work that had been done, and we reported it in our paper. Yet, somehow, we said that it was the Water Department

that did the work. Everybody knows that Jimmy is Superintendent of Highways.

RELIEF FROM HOT SPELL

Wilmington had a one day relief from the hot spell, which had already run for 8 days, with temperatures running well over the 90's all day, and in the 70's during the night.

Sunday afternoon a slight easterly breeze made itself felt, and the temperature started to drop. The weather, Monday was wonderful, but it ended with a shower Tuesday morning. The weather man says that we have plenty more of heat coming.

DEATH OF HOWARD FISH

Howard L. Fish, 75, of Burlington Avenue, died on July 17th in the Winchester Hospital. Mr. Fish, who was on engineer with the Boston and Maine Railroad, until his retirement 3 years ago, was well known in Wilmington, having lived here for the last 26 years.

Surviving are his wife, Mrs. Emma Fish, and four sons, Charles, of Shawheen Avenue, Robert, of Encino California, Fred, a Captain in the Army, and Arthur.

Interment was in Wildwood cemetery on July 19th.

FREE SUBSCRIPTIONS FOR WILMINGTON SERVICEMEN

The Wilmington Crusader, and the Wilmington Post, 136, of the American Legion have made an agreement which, they hope, will provide every serviceman from Wilmington with his weekly copy

of his home town news. Both organizations have been concerned with the fact that it is a difficult thing to send all the news to the boys in the ranks from the old home town, and they feel that a subscription to Wilmington's newspaper should help to keep the boys in touch with home.

The American Legion, Wilmington Post is paying for these subscriptions, which the Crusader is selling to them at a reduced price.

Here's your chance, Mothers Dads, Sweethearts and Wives! All you have to do is to send the name and address of Your Man in The Service to Arthur Harper, American Legion Post 136, Wilmington, Mass., and the American Legion will do the rest. A Penny Post Card will do the trick. The reduced subscription rate is not available except to the American Legion.

Send in the name of Your Man, Today! Do It Now! It's FREE!

REAGAN-STANDRING NUPTIALS AT ST. THOMAS

In a lovely afternoon ceremony, Miss Patricia May Reagan, the daughter of John and Geraldine Reagan became the bride of William Edward Standring Jr., the son of Mr. and Mrs. William E. Standring of 9 Garland Avenue, Everett.

The altar, at St. Thomas Church was decorated with white gladiolus and mums, as the couple exchanged vows, on July 13th, at 3 p.m. Father John Reagan was the officiating clergyman, and the bride was given in marriage by her father.

John O'Neil, of Church Street, sang Ave Maria, and Mother, at Thy feet is kneeling, by the sisters of Notre Dame. Mrs. Estelle Shelley was the organist.

The bride wore a gown of white imported Swiss Organdy and Organdy Eyelet, and a finger-tip veil, with a headpiece of orange blossoms.

Her Maid of Honor was Miss Marion Foley, a classmate, who wore an orchid colored ballerina length gown of organdy and organdy eyelet.

Bridesmaids were Mrs. Augustus Blaisdell and Mrs. Robert Wagstaff, classmates of the bride, who wore matching Nile green ballerina length gowns of organdy.

Mr. John Reagan, of Washington, D. C., the bride's brother, was best man, and the ushers were Mr. Amos Wood of Allston, and Mr. Robert Small of Brighton.

A reception was held, after the ceremony, in the Red Hill Country Club, North Reading. Miss Carolyn Creamer, fiancée of the bride's brother, was in charge of the Guest Book.

While in the receiving line, the bride's mother was gowned in teal blue, with a matching hat, and white accessories, while the groom's mother wore white organdy over blue, with white accessories. Both of the ladies wore corsages of red roses.

For her going away costume the bride chose a pink linen suit with navy blue accessories.

After a honeymoon tour of New England, the couple will make their home at 67 Spring Street, Stoneham, after July 24th.

Mrs. Standring is a graduate of Wilmington High School, and has been employed in an electronics laboratory. Mr. Standring, a graduate of Tufts College, is a physicist, and is a veteran of the United States Navy.

THE FIRE IS FINALLY OUT

The fire, behind the Roberts estate was finally declared out, at about noon, on July 20th. The fire had started at about noon, 14 days previously, and while never dangerous after the first day, had continued to smolder, underground. A tremendous amount of water had been used, to get the fire finally extinguished.

it's not what you do

Fast order of eggs, up and over, coming up! Sure, that's wonderful. But be sure to watch every little detail . . . because if those eggs affect the guy who ordered them, in the wrong way . . . well, all we can say is you'd better watch out!

it's the way you do it

And that applies to our business too. It takes careful attention to each little detail, every time, to give you the kind of Dependability you know you can rely upon for consistently perfect results.

AMERICANS ARE ROLLING UP THEIR SLEEVES!

*Co-Eds and Actors and Building Contractors — All Kinds of People
Are Giving Blood So That Our Wounded May Live!*

But —

**WHAT HAPPENED TO THAT PINT OF
BLOOD YOU WERE GOING TO GIVE?**

Today's medical and surgical techniques are sending back more and more wounded men to lead normal, constructive lives. These techniques require repeated transfusions of whole blood for operations, for skin grafting, for plastic surgery. That's why America has been asking for voluntary blood donations at the rate of 300,000 pints a month.

But . . . the quota is far from being filled.

That's the picture. And now that you know it, we think that you, too, will thoughtfully give your blood.

Be assured that your Red Cross, its nurses and doctors, will allow you to donate only if you are physically capable of doing so. As to after-effects, any doctor will tell you that you'll continue to feel fine—that your body quickly and easily manufactures lots more new blood to replace that which you've given. In many instances, people say that giving blood has helped them feel better; sharpens appetites, and makes them feel "simply wonderful"!

So make your appointment before you leave on vacation. Roll up your sleeve along with all the other Americans who give the gift for which there is no substitute—life-giving, health-giving, joy-giving blood!

**✓CALL YOUR AMERICAN
RED CROSS TODAY!**

Wilmington Yarns

By Paul D. Emmons.

6th Instalment

Picturesque Wilmington! Interesting memories. Curious coincidences of fate and circumstance which tie up to the past and effect our present lives. That was our heritage from the year 1887.

Last week I told how in the summer of that year we boarded at the Hamlen's. Romance was in the air. Bert Buck was courting Emma Hamlen, and in the Fall he married her. Another romance was also in the making, culminating the next year on the celebrated croquet grounds of Aunt Lizzie Blanchard—the marriage of Annie Gowing and her cousin, Fred Gowing.

Annie Gowing's father was William E. Gowing, brother of the ill-fated George Gowing who had built the Hamlen house. William E. Gowing lived next door to his brother George in what is now Andy Kelley's place, and carried on a thriving meat business there.

Herds of cattle from Brighton were driven over the road, corralled in his cow yard, slaughtered and dressed in the old slaughter barn which is still standing on the opposite side of the road from Andy Kelley's house. The meat was then packed in large, two-horse teams like the covered wagons of western pioneer days and driven over the road to Lawrence where it was sold.

William E. Gowing did a large wholesale business for those days, having 75 to 100 head in his yard all the time. The steers were driven through a runway to the edge of the barn floor, shot through the head with a rifle, skinned, hauled up by an overhead windlass, and suspended by their hind legs while the carcass was quartered and trimmed. The meat was then put in refrigerators on ice supplied by a man named Holt from Andover, who cut it on the meadow where George Gowing and his wife were drowned.

He had an ice house on the edge of that meadow which the old timers will still remember, although it has since been torn down. Frank L. Eames bought it from him in 1877 and started the first retail

ice business in Wilmington.

Butchering was a widespread industry in town, several members of the Buck, Eames and Carter families being engaged in it, but one of the most picturesque figures was Horace Sheldon, son of the celebrated Asa G. Sheldon. He was a "drover",—the only one in Wilmington in the early days. Every Tuesday he went to Brighton, and came back with a herd of cattle, cutting out and delivering a dozen or more at a time to his different customers along the way. By night-fall he would reach Ruel Carter's place in Woburn near Boston Street, where he would herd in for the night, then finish his trip to Wilmington the next day.

Aldice Eames remembers how as a small boy attending the East School he used to climb the stone wall to get out of the way of the long horned steers coming up the road, and George Buck can tell you how Horace Sheldon's covered ox team used to make daily trips with the manure and offal from William E. Gowing's slaughter barn, carrying it down to Sheldon's farm on Woburn Street to spread it on the land for fertilizer.

A quarter of beef sold in the wholesale trade at somewhere from 7 to 9½ cents a pound. About 1870 William E. Gowing, finding that he could buy cheaper in Chicago than in Brighton, moved to Lawrence and went into partnership with a man named Higgins whose wife was related to the Swift family. Gowing became an agent for Swift's, and lived in Lawrence for several years, but his love for Wilmington and his connection with the Blanchard family (his wife was a niece of Aunt Lizzie's) drew him back.

Coincidentally, my family had picked the Hamlen place for their summer vacation in 1887 because it was a good one for kids, I being a two-legged, three-year old kid at the time. Today it is Pine-mere Farm, given over to raising four-legged kids. And William E. Gowing, who used to live next door to it, built the house I am living in now.

More about this in our next. Editors Note: Andy Kelley's place is today the Jensen farm, on Andover Road. The Asa G. Sheldon place is now the home of Oscar Peterson, at 604 Woburn Street.

HEALTH FOR ALL**Vitamins**

Thanks to a constant bombardment of advertisements, we are a vitamin-conscious nation. Not only are laboratory-produced vitamins brought to our attention, but certain food items like bread and cereals are labelled as "enriched" with one or more vitamins.

Vitamins, produced in tablet or capsule form, are frequently prescribed to supplement a person's diet or to help his body make the best use of its food. They should never be considered a substitute for food, however.

As our knowledge of food increased, it was discovered that certain elements in food, now known as "vitamins," were necessary to prevent illness. Where a person's diet did not include sufficient amounts of all of these elements, serious deficiency diseases could result.

On the whole, a person who sticks to a well-balanced, well-chosen diet of nourishing foods gets all the vitamins he needs. But even then, sometimes vitamins are lost in cooking or preparing food and vitamin supplements are necessary. When a person is in doubt, the sensible thing to do is to consult the doctor to find out if vitamin supplements are needed and what kinds may be required.

Several types of vitamins have

been discovered so far, some with specific names and others identified by letters. The first vitamins known were named with the letters of the alphabet in the order of their discovery.

A well known New England poultry breeder decided to buy a CO2 extinguisher to have near his expensive electric incubators full of eggs. He must have had a premonition! Just ten days later his son discovered fire burning thru the wall behind the electric meter, apparently from a short circuit. The poultryman did two things, and did them right. First, he called the fire department. Then with the extinguisher he controlled the flames until the department arrived. Result: a minor loss, instead of a big fire, a disrupted business and scores of customers with no chicks.

As far as we know, each type of vitamin seems to have its own particular use. Vitamin A, for example, found in carrots, sweet potatoes, citrus fruits, butter, and cod liver oil, is necessary for normal growth.

Vitamin B, made up of a number of different elements collectively known as B complex, is in meats, grains, eggs, cheese, spinach, prunes, beans, and whole wheat flour, and is necessary to ward off some nutritional disease. Lack of Vitamin C, an element

found in citrus fruits and other fruits and vegetables, can cause scurvy. Absence of Vitamin D, found largely in milk and fish liver oil, can result in rickets, a bone-deforming disease.

There are many more vitamins—some yet to be discovered and identified—all necessary to adequate nutrition and sound health. The best way of getting all of them is by adhering to a diet of well-balanced meals, rather than unwisely depending on pills. Again, if and when additional vitamins in packaged form are needed, the doctor is the one to determine what vitamins and how much of each are needed by the individual.

This column is sponsored, in the interest of better health, by: Your local tuberculosis committee and Middlesex Health Association, 385 Broadway, Somerville, Mass. PR. 6-3093.

A match is a wonderful contrivance, but misuse of this little piece of wood can leave you without your family, without your home, and without your job. It might even leave you dead. Be careful with fire—it is a good friend only if properly handled.

The skipper of the first American submarine to cross the Equator, now a Peoria, Ill., businessman, is William C. Burgy. He became an honorary submariner recently when he visited the New London submarine base for the first time in 30 years.

TRAIN STONED

The Boston and Maine Railroad
notified the Wilmington police, on
Thursday, that boys had stoned a
train, at 1:14 p.m. Tuesday, and
again at the same time on Wed-
nesday. Stones were reported to
have entered the diesel cab, thru
the window. The stoning took
place on the Lowell Division
track, near where it crosses the
Shawsheen River.

TM RECEIVES A LETTER

A letter which the TM received
the other day had a pink slip en-
closed. The pink slip may now be
seen, on the wall, behind the TM's
desk. It reads:—Why be disagree-
able when with a little effort you
could be a real stinker!!

MEET JIM MULLAN

A recent addition to the Divi-
sion of Fisheries and Game's staff
is James W. Mullan, of Leominster,
who will conduct stream survey
work under Dick Stroud.

Twenty-six years old, Jim Mul-
lan is especially well qualified by
training to handle this important
survey of our major streams. He
graduated from Utah State Agri-
cultural School in 1950 with a de-
gree of B.S. in wildlife manage-
ment, specializing in fisheries work.

In the summers of 1950 and 1951
he worked on the great pond sur-
vey in Massachusetts and previous-
ly had experience with the U.S.
Forest Service.

Jim's major interest lies in the
outdoors, particularly as it applies
to fishing. He is a veteran of over-
seas service in the Marines, and is
unmarried.

TENDERFOOTS AHOY

Assistant Scoutmaster Walter
Rogers will hold forth, in S M
Balsers Barn, to interview any boy
who wishes to join the Scouts.
Provisions are being made by boys
to pass Tenderfoot tests, at the
same time. Back dues, and Camp
Stamps will also be taken care of.

WHA BOOKS AUDITED

The Town is in receipt of a letter
from the State, which states that
the books of the Wilmington
Housing Authority have been audi-
ted, from July 1, 1951 to March
31, 1952. In general everything was
found to be in good order. A few
minor recommendations were made.

RUBBER BASE PAINT TO BE USED?

The TM is considering the use of a rubber base paint, for the walls of the High School. The present paint is very hard to clean, as used on the cinder blocks. Rubber based paint, it is hoped, will be easier to clean. It is planned to use it in the cafeteria, and in other rooms, up to a height of about 7 feet.

LETTER TO THE EDITOR

Dear Sir:

We wish to express our deepest gratitude to the Fire Department, the Police Department,

and to Dr. Miriam Hosmer, for their efforts to save the life of our little daughter, Paula. Both my wife and I believe with all our hearts that everything that was humanly possible was done to save her, but it was the will of God that she should depart from this earth.

We also wish to thank all our neighbors and friends for their wonderful cooperation and their efforts to make our hearts a little brighter in our hour of sorrow.

Yours sincerely,
Raymond Dewhurst.

SOUTH TEWKSBURY METHODIST CHURCH

The South Tewksbury Methodist Church Vacation School ends Friday, with an exhibit in the church of the children's handiwork, at 7 p.m. and a final closing program at 8 p.m. There will be songs, recitations and skits. All parents and friends are invited.

On Saturday, at 10:00 a.m. children and parents will leave the church, for the Vacation Church School Picnic, to be held at the Harold Parker State Forest, in Andover. It is requested that bathing suits and lunches be brought. Punch will be provided.

METHODIST CHURCH

Sunday, July 27, the Methodist Church will hold its service of worship at 10:00 a.m. The pastor, the Rev. Otis A. Maxfield, will preach on the subject: "The Opportunities of Loneliness."

Special music will be provided by the choir. Tuesday, July 29, the Finance Committee will meet at the home of Mrs. Wilbur Stavely.
